General Directions to Customers

The attention of customers is respectfully called to the following directions, which will, if followed, be an aid to purchasers as well as to us.

ORDER EARLY. We aim to execute all orders as soon as received, but during the rush season from March to May and again from July to September, slight delays are unavoidable, which, however, can be largely overcome by patrons anticipating their wants and ordering and taking delivery of their requirements **early**.

SAFE ARRIVAL OF PACKAGES. We guarantee the safe arrival of all goods sent by express or mail to points within the United States. If a package sent by express or mail is injured or lost, we will replace it as soon as informed of the fact. Goods sent any other way are solely at purchaser's risk. When customers fail to receive their packages in a reasonable time they should inform us, and at the same time send a copy of their order and any other information necessary to trace the goods. Claims for damage must be made on receipt of goods. We do not hold ourselves responsible for failure after delivery of the goods in good condition.

ERRORS. We exercise the utmost care in filling orders, yet in the press of business errors sometimes occur, in which event we wish to be promptly notified of the fact, and will make such corrections as will be satisfactory. Please keep copies of all your orders for comparison.

REMITTANCES should be made by Post Office Money Order, Express Money Order or Checks, we disclaim all responsibility when remittances are not made as above directed. Where it is not possible to obtain these, the letter should be registered. Coin should not be sent by mail.

WASHINGTON RESIDENTS must include 3% sales tax with remittance. This is required by the Washington State Tax Commission.

 **Please do not send personal check under \$1.50 unless you** 
add 10 cents for collection fee.

CASH WITH ORDER. Please send money with the order sufficient to cover the whole bill. We decline sending goods "Collect on Delivery" unless remittance be made on account to guarantee acceptance.

NON-WARRANTY. Most of the failures with seeds, plants and bulbs are due to causes entirely beyond our control, such as unfavorable weather or soil conditions, too deep or too shallow planting, etc., which renders it impossible for us to guarantee success, and although we take all possible care to supply only such goods as will, under proper conditions, produce satisfactory results, we will give no warranty as to description, quality or productiveness of any of the seeds, plants or bulbs we send out, and will not be in any way responsible for the crop, and every order for articles named in this catalog will be executed on these conditions only. It must, however, be plain to everyone who gives the matter the slightest thought that it is to our best interests to send out only such stock as will not only grow, but prove true to name and description.

BLACK-EYED WHITE DELPHINIUMS. After years of careful rogueing, selecting plants, we have now plants that will produce a high percentage of large black-eyed double whites; many of our breeders have very large coal-black glowing centers. Please remember this when your plants begin to bloom. Per pkt. \$1.25; $\frac{1}{2}$ pkt. 75c; 1/16 oz. \$3.00 (over 600 seeds).

HARDY PERENNIAL FLOWER SEEDS

For Spring and Summer Sowing

ALL FLOWER SEEDS SENT POSTPAID

NO SEED ORDER FOR LESS THAN 25c PLEASE

PLEASE DO NOTE!

 All seed packs contain a liberal amount of seed. If you have a large garden, the most economical way to buy seeds is in bulk; 1/16 oz. and up, where so quoted.

In comparing competitive prices be assured that you get fewer and often inferior seed at the lower prices.

To grow high grade seeds takes more care and skill, and costs more money, but it certainly pays in the end to buy only such seed. This refers particularly to Delphinium, Columbine, Primroses, Pansies, Sweet Peas and Zinnias.

Of course the seeds must be fresh, and be assured ours are. Buy old or inferior seeds is a waste of money and time. No seed order for less than 25c, please.

We offer this grandest and sweetest of all Sweet Corn on the market.

ORDER EARLY. There is never enough to fill late orders.

Never was sweet corn that tasted as sweet. It will stay in good condition for table use for two or three weeks. It stays in milk so long that natural ripening is impossible; ears that were ready for table use in October were still in milk when hard frosts killed the plants in November.

BY ALL MEANS GIVE THIS SWEET CORN A TRIAL THIS YEAR AND YOU WILL COME BACK FOR MORE NEXT YEAR. Make your first planting during May two weeks apart; make another one the second week in June, another the last week in June, and the last planting the first week in July, and this will furnish you sweet green ears until early October.

We have had reports from customers having the ears for table use for Thanksgiving. They had made late plantings of seed in June and July.

DAHLIA CULTURE

Dahlias thrive in any good garden soil which is well drained. Compost or well rotted cow manure will add desired humus to the soil, but DO NOT allow the manure to come in direct contact with the tubers. They like a sunny location and water only when the ground is quite dry and then soak it thoroughly.

Plant when danger of frost is past; and set a stake beside each tuber. Plant tubers horizontally with "eye" or sprout facing up, from 4 to 6 inches deep.
